DETAILED ACTION

1. This is in response to amendment dated: 2/16/06. Based on this amendment, claims 2, and 19-20 (amended to be numbered as 20-21) have been cancelled), claim 22 has been added anew, and, therefore, claims 1, 3-12, and 22 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 3-19 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. Claim 1 recites the limitation "a WLAN 802.xx spectrum" in line 8. There is no antecedent basis for this limitation in the claim. This limitation is preceded by "an 802.xx WLAN" in line 3. Similar problem exists in lines 10, 12-13 of claim 1, and also in claims 6 (line 4), 7 (line 4), 19 (lines 7, 10, and 12) and claim 22 (line 8).

b. Claims 1, 3-9, 13, 19 and 22 recite the limitation "802.xx". This limitation is indefinite, because it is not clear as to the indefinite meaning of "xx" appended to "802". It is vague, and not specific.

Appropriate correction/clarification is required.

Allowable Subject Matter

4. Claims 1, 3-19 and 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

5. Applicant's arguments filed 12/16/2005 have been fully considered but they are not persuasive.

Applicant argues that "The first time an element is introduced in a claim, it must be preceded by "a" or "an." Thus, there is antecedent basis for "an 802.u WLAN" in the claims.

In response, it is stated that there are still many instances of "Lack of antecedent basis", see office action., which need to be corrected.

Applicant argues that "It is commonly known by a person of ordinary skill in the art that "802.xx" refers to a family of networking specifications developed by a working group of the Institute of Electrical and Electronics Engineers (IEEE). There are several specifications in the family, hence the "xx" designation. For example, the family includes 802.11, 802.11a, 802.15, 802.16, to name but a few.

In response, it is stated that the claim is rejected under 35 U.S.C. 112 second paragraphs, as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In light of above explanation, arguments by applicant are not persuasive.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
